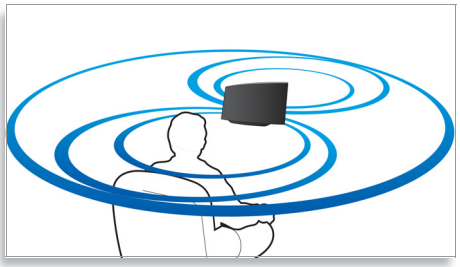
Highlights

SoundAvia



Designed to satisfy the most demanding music aficionados, SoundAvia will fill your room with impressive audio quality from a compact device. Full range front-firing speaker drivers and back-firing bass pipes optimize the sound balance, while the slightly curved baffle design elegantly broadens the optimal listening area.

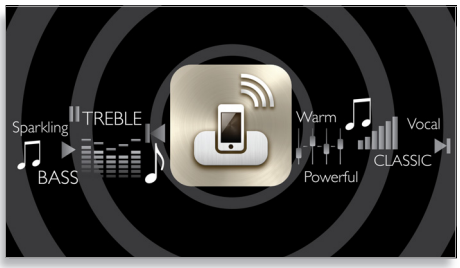
FullSound™

Philips' proprietary FullSound technology uses latest-generation Digital Signal Processing to faithfully enhance music rendering. Music content is dynamically analyzed and optimized to let you experience music with great detail and warmth.

AirPlay wireless technology

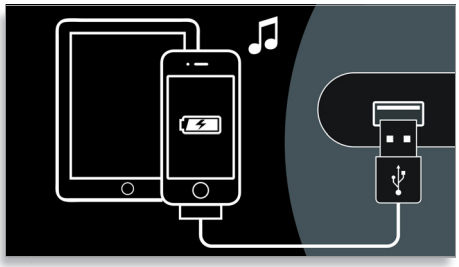
AirPlay lets you stream your entire iTunes music collection to your Philips Fidelio docking stations. It plays wirelessly from the iTunes program on your computer, iPhone, iPad or iPod Touch - to any AirPlay-enabled speaker in your home. All you have to do is ensure your speakers are connected to your Wi-Fi network. AirPlay also lets you play simultaneously on every speaker in every room. Get your favorite tunes to follow you whichever room you go.

SoundStudio App



Have music the way you like it now. SoundStudio truly puts the power over your music into the palm of your hands. It lets you change every aspect of sound, using only your iPhone, with controls that are intuitive and simple. Now you can tweak, tailor and create your desired sound experience and have your favorite songs come to new life. SoundStudio also lets you listen to thousands of Internet radio stations worldwide, broadening your music experience even further.

Play & charge iPod/iPhone/iPad



This speaker comes with a USB port, allowing you to conveniently charge your iPod, iPhone, iPad. Simply connect your Apple device with its USB cable to the back of the speaker. You can play any music from your Apple device whilst it is charging.

AUX-in connection

The AUX-in connection allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the speaker, AUX-in connection is also extremely convenient as all you have to do is to plug your portable MP3 player to the speaker.
